Preview of pupil steps:

1. Water! It might not be everyone's favourite drink, but you're going to write an advert for why it should be! First, click step 2 to find out more about why it's so important for our bodies.
2. Watch this video to find out how food and water are used by our bodies. Why is drinking water important? How does the body use water? In which ways do we lose water?
3. Read more about how our bodies use water and how it loses water in a number of ways. What jobs does water do? Why is it so important?
4. Test your knowledge of water and nutrients and how they are used by the body? Finding it tricky? Why not watch the video on step 2 again.
5. Watch this video. How can sugary drinks be dangerous? Why is it not the same as drinking water?
6. Now you are going to write your advert. How can you persuade people to drink water? Look at the questions at the bottom of the page to help structure it. When you have finished, why not film a video advert using your written advert as a script!
